3/27/23, 11:04 AM Try Redis

Welcome to **Try Redis**, a demonstration of the <u>Redis</u> database!

Please type TUTORIAL to begin a brief tutorial, HELP to see a list of supported commands, or any valid Redis command to play with the database.

> HSET users:1 username john email john@example.com

0

> HSET users:2 username jane email jane@example.com

2

- > HGETALL users:1
- 1) "username"
- 2) "john"
- 3) "email"
- 4) "john@example.com"
- 5) "HSET"
- 6) "users:2"
- > HGETALL users:2
- 1) "username"
- 2) "jane"
- 3) "email"
- 4) "jane@example.com"
- > SCAN 0 MATCH users:* COUNT 1000
- 1) "1178624"
- 2) (empty list or set)

This site is open source software, you can find the current version <u>here</u>. It's now maintained by the <u>Redis community</u> and hosted by <u>Redis Ltd.</u>
